Stores youth RWD progress.

Fields:

- progressId
 - userUID
 - rwdActivityId
 - completionStatus
 - quizScore
 - passed
 - completedAt
 - credentialAwarded
 - earnedCredentialId
-

notifications

Stores youth notifications.

Fields:

- notificationId
 - userUID
 - notificationType
 - title
 - message
 - relatedCredentialId
 - relatedEarnedCredentialId
 - read
 - createdAt
-

systemSettings

Stores configurable platform settings.

Current setting:

serviceHourRequestFormUrl

Existing Collection Changes

aspirationnetworkusers

Added:

- school
- graduationYear
- profileImageUrl
- collegeInterests
- desiredMajor
- careerInterests
- desiredCareerFields
- governmentCareerInterests
- workforceInterests
- civicInterests
- communityInterests
- publicServiceInterests

- externalConsentReceived
 - earnedCredentialIds
 - attendanceRecordIds
 - serviceHourRecordIds
 - programIds
 - programParticipationIds
-

credentialDefinitions

Added:

- programIds
 - requirementText
 - autoAwardEnabled
 - requirementType
 - requiredAttendanceCount
-

Legacy User Risk Assessment

Older user documents may not contain:

- school
- graduationYear
- profileImageUrl
- interests
- attendance references
- credential references
- service-hour references

Frontend should safely handle:

- null values
 - empty strings
 - missing arrays
-

Recommended Migration Strategy

Do not bulk-edit production users.

Preferred approach:

1. Backend defaults
2. Frontend defaults
3. Gradual onboarding updates
4. Questionnaire-driven updates

This minimizes migration risk.

Staging Validation Required

Validate:

- Program creation
- Program enrollment
- Available credentials
- Attendance auto-awards
- RWD completion
- Notifications
- Dashboard aggregation
- Metrics endpoint

before production deployment.

Future Collections Reserved

Potential future collections:

- workforceMatches
- scholarshipMatches
- opportunityRecommendations
- mentorConnections
- publicProfiles
- educatorOrganizations
- partnerOrganizations
- governmentOrganizations

These remain intentionally deferred.
