

ASPN Platform Release Notes v0.2

Version: 0.2

Date: June 2026

Project: ASPN Platform September MVP

Status: Backend Foundation Milestone Complete

Executive Summary

Release v0.2 represents the completion of the primary September MVP backend architecture.

The platform has evolved from a basic profile and credentialing prototype into a structured youth participation platform supporting:

- Youth onboarding
- Program participation
- Credentialing
- Attendance tracking
- Service-hour tracking
- Revolution Will Be Digitized (RWD) learning activities
- Notifications
- Staff management
- Metrics collection

This release establishes the operational foundation necessary to onboard approximately 100 youth users during the September 2026 launch period.

Frontend implementation remains in development.

Major Capabilities Added Since v0.1

Youth Profile Expansion

Added support for:

- School
- Graduation Year
- Profile Image URL
- College Interests
- Desired Major
- Career Interests
- Desired Career Fields
- Government Career Interests
- Workforce Interests
- Civic Interests
- Community Interests
- Public Service Interests
- External Consent Status

Profiles remain private by default.

Program Management

Added program administration support.

Staff/Admin users can:

- Create programs
- Update programs
- Archive programs

Youth users can:

- View active programs

Program statuses:

- active
 - archived
-

Program Enrollment

Added enrollment infrastructure.

Youth users can:

- Self-enroll into active programs

System protections:

- Duplicate enrollment prevention
 - Archived program enrollment prevention
 - Verified Firebase UID ownership
-

Dashboard Aggregation API

Added:

GET /api/me/dashboard

Purpose:

Provide a single backend response for dashboard loading.

Current dashboard sections:

- Profile summary
 - Active enrollments
 - Earned credentials
 - Available credentials
 - Attendance records
 - Service-hour records
 - RWD Learning Center
 - Notifications
 - Service-hour request link
 - Opportunities link
-

Credential System Expansion

Added:

- Credential definitions
- Earned credential tracking
- Program-linked credentials
- Available credential display

- Requirement metadata
- Locked credential display

Credential catalog remains configurable and staff-defined.

No ASPN credential catalog has been hardcoded.

Attendance Tracking

Added:

- Attendance records
- Attendance retrieval
- Attendance association to youth profiles

Supported attendance statuses:

- present
 - absent
 - excused
 - pending
-

Attendance-Based Auto Awards

Added first automatic credential pathway.

Supported requirement type:

attendance_count

Behavior:

When required attendance thresholds are met:

- Credential is awarded automatically
 - Duplicate awards are prevented
 - Notification is generated
-

Service Hour Foundation

Added:

- Service-hour records
- Staff verification structure
- Service-hour retrieval

Google Form integration remains deferred.

RWD Learning Center Foundation

Added:

- RWD activity model
- RWD progress tracking
- Quiz score tracking
- Completion tracking
- Credential linkage support

Pass threshold:

80%

Supported countries:

- Bangladesh
- Bulgaria
- Indonesia
- Kenya
- Madagascar
- Mexico
- Mongolia
- Morocco
- Nepal
- Nigeria
- Peru
- Philippines
- Serbia
- Tanzania
- Timor-Leste
- United States

Videos remain externally hosted.

System Settings

Added configurable platform settings.

Current setting:

serviceHourRequestFormUrl

Allows staff/admin users to update the service-hour request form location without code changes.

Notification Foundation

Added:

notifications

Current notification type:

credential_earned

Notifications are generated when:

- Staff manually awards a credential
- Attendance auto-awards a credential
- RWD-linked credential awards occur

Dashboard now includes:

unreadNotificationCount

Metrics Foundation

Added:

GET /api/staff/metrics

Provides aggregate counts for:

- Youth users

- Active youth users
- Programs
- Enrollments
- Earned credentials
- Attendance records
- Service-hour records
- Completed RWD activities
- Unread notifications

Purpose:

- Grant reporting
 - Program reporting
 - Workforce pipeline validation
 - Research metrics
 - Dissertation data collection
-

Security Enhancements

Implemented:

- Firebase ID token verification
- Staff/Admin route protection
- Verified UID ownership
- Youth self-service protections

Protected routes require:

Authorization: Bearer

Deferred Features

The following remain intentionally out of scope for September MVP:

- Public youth discovery
- Public profile search
- Direct messaging
- Followers

- Connections
- Social networking
- Peer-to-peer discussion
- Workforce matching
- Scholarship matching
- Government matching
- Parent portals
- Educator portals
- Partner portals
- Government portals
- Public portfolios

These features remain eligible for future development after September MVP validation.

Backend Completion Estimate

Youth Profiles: Complete

Programs: Complete

Enrollment: Complete

Credentials: Complete Foundation

Attendance: Complete Foundation

Service Hours: Complete Foundation

RWD Learning Center: Complete Foundation

Notifications: Complete Foundation

Metrics: Complete Foundation

Authentication & Authorization: Complete Foundation

Backend Overall: ~90%

Frontend Overall: ~10%

September MVP Overall: ~70%

Known Limitations

- No frontend interface yet
 - No Google Form sync
 - No trusted quiz engine
 - No email notifications
 - No SMS notifications
 - No push notifications
 - No advanced reporting
 - No exports
 - No historical metric snapshots
-

Next Milestone

Checkpoint 21: Frontend MVP Build

Following completion of Frontend MVP Build:

- Firebase Staging Validation
- September Onboarding Rehearsal
- MVP Launch Preparation
